

i.What does Peace with creation look like to you?

I chose the following Laudato si quote “The Earth,our home,is beginning to look more and more like an immense pile of filth”.I chose to connect it with the topic “what does peace with creation look like to you” because im showing how our earth can be fixed and not filthy and our earth can be more peaceful with everyone's help.

How does this quote connect to what i drew?

Because i am showing the opposite of what it says and showing how it can change instead of being a big pile of filth insinuating its more peaceful and calmer with everyone's help.

Explain what i did and included in my art peace and why?

I included Jesus because he brings joy and peace to our world,Earth because we all live around it,People because they are helping make our world a better place and planets because it shows Jesus holding earth in our solar system.

Tell how looking after creation/caring for creation connect with our collage theme of hope?

It connects to our collage theme “hope” because we hope that everyone can someday be happy and we can all care for each other and our earth.

BONUS MARKS : They might like our catholic social teaching:

Care for god's creation because God created our earth so we could look after it and all He is asking for in return is us to give Him a hand by doing what He says.
