

Reflection

I chose the following Laudato Si' quote "The entire material universe speaks of God's love, his boundless affection for us. Soil, water, mountains: everything is, as it were, a caress of God." (*Laudato Si'*, 84). This quote connects to my artwork because he created this universe with love and he wants us to care for it and look after it. In my art I created a side by side everyday life in different parts of the world. One of them is affected by pollution, litter, climate change and war. The other side is healthy plants, kids playing with each other, recycling and birds flying in the sky, showing peace. I included all this so we can see what our rubbish and pollution is doing to different parts of the world and that not all places are peaceful, lucky and at least with 0% of climate change. Caring and looking after creations connected with our college theme hope since we need to have hope that future generations will be able to live a life that has fresh air and growing gardens just like we do.
