What does peace with creation look like to you?

What does peace and creation look like to you?

What peace and creation looks like to me is many people living in harmony together and with the earth. It also means recycling and not trashing our only home. It also is only taking what we need and nothing more.

I chose the Laudato Si quote "The end of all living creatures has come before me, because through them the earth is full of violence. Now behold, I will destroy both them and the earth." I chose this quote because it shows that if we keep trashing our earth all living creatures will soon begin to perish so that's why we need to take care of our home before there is only a little bit of it left.
