

Drawing:

What does peace with creation look like to you?

Reflection:

My drawing connects with the teachings I chose because my artwork represents what will eventually happen if we don't work together to help the world around us and just leaving the world uncared for, while the teaching "The common good" and "The climate is a common good, belonging to all and meant for all." is about living in community/unison, working together in a team to support the Earth, and to take in God's word and keeping his creation safe.

Caring for creation is a theme of hope, because we are all working together and the Earth will gradually improve, if we try hard with all of our support and effort, we have hope to keep continuing the good deeds of the earth like cleaning, loving and considering the Pope's message.
