Part i: "Because of us, thousands of species will no longer give glory to God by their very existence, nor convey their message to us. We have no such right"

Part ii: Reflection: This artwork shows one side, where we work together to clean up the land, and the right side is our world if we keep treating it poorly. We need to all work together to keep our land thriving. Like the quote "29 God said, "See, I have given you every plant yielding seed that is upon the face of all the earth, and every tree with seeds in its fruit, you shall have for food" We need to keep the land surviving so we can all eat food

Part iii: This task connects to our collage value hope because we hope that everyone can make a change and step up to help out environment, so it can thrive, survive, and we can keep all our animals, plants, and even humans, healthy, safe and alive.
