

Religion - Sacred Story: Our call to care for creation

Choose **one** quote from Laudato Si that describes humanity's Responsibility for creation.

“Humanity is called to recognize the need for changes of lifestyle, production and consumption, in order to combat this warming...”

Reflection:

This piece of artwork shows two contrasting sides of our world. One side represents a clean, cared-for environment, while the other shows a mushroom cloud from a bomb explosion, symbolizing destruction and dirtiness. The dirty side reflects an unhealthy, unhappy environment — what our world could become if we ignore our responsibility to look after it. This drawing demonstrates that our choices matter: the world *can* change for the better, but it will only change if we put in the time, effort, and care to be part of the solution.
