

Young people demand change. 
 there wonder how anyone can claim
 to be building a better future
 without thinking of the environmental
 crisis and the sufferings of
 the excluded.

- Pope Francis
 Laudato si'

Who would you choose?
 It's like a garden, what flowers
 would you pick? Obviously
 the pretty ones and not dying ones to help.

We turned it

Question for the Artwork: Why is
important for young people to
reconnect with creation?

I chose this question for my artwork because young people need to realise
what the world needs to improve at. It is important for young people to
connect with creation because the world need us and needs our help.

Younger generations should also connect because they don't see the

differences of the underprivileged families and kids compared to them.

Entry:

i)

One laudato si quote is "Young people demand change. They wonder how anyone can claim to be building a better future without thinking of the environmental crisis and the sufferings of the excluded."

ii)

This quote relates to my artwork because my artwork shows what we changed the world into versus what it is supposed to look like. It shows some art works on the side as well, making sure that we will remember how the world is and how God and the Laudato si is trying to say to us and giving us advice and help. The teaching that I chose for Part A relates to my artwork because it shows the difference between an excluded family and a privileged family

iii)

Caring for creation demonstrates our college theme of hope because Laudato si, Pope Francis and God are trying to help us make the world better and they are giving us hope and strength to help make the world better and a safer place for everyone. They are giving us Hope for giving everyone an equal chance and opportunities for all that we deserve
