Reflection

Quote 2 : "The climate is a common good, belonging to all and meant for all."

Meaning : The connection between my drawing and this quote is that if we all seek common good, our world will become so much happier it will light up our universe. The light shows change and how it's for the better. Without this change of love, we may face struggle. But if we come together as a community and take care of our home in a way that shows common good, the world will bring peace and be happier.
