QUOTE OF LAUDATO SI: PEACE

One quote that i believe my artwork is meaningful for is that "Peace begins when people care for each other and care for the earth. In duty care for creation. The world is a shared home. And we all must protect it everyone should look after creation with love and respect. Make the world have a change through little daily actions. And slowly create PEACE and love for our earth. So we can build a more peaceful, looked after fair world for everyone.
