

Lily Tran Part B

Entry:

"This sister now cries out to us because of the harm we have inflicted on her by our irresponsible use and abuse of the goods with which God has endowed her. We have come to see ourselves as her lords and masters, entitled to plunder her at will."

My artwork connects to this teaching by showing the difference between destruction and care for creation. The left side, with smoke and pollution, represents what the world looks like when we neglect the earth. The right side, with trees and wind turbines, shows the world God created and wants us to protect.

Caring for creation demonstrates our 2025 St Columba's College theme of Hope because it shows that a better future is possible. By protecting the environment, reducing pollution, and choosing sustainable ways of living. Each small action reflects hope for a greener, healthier world, That God wants us to have.
