

Lola Mora

Part B

Reflection: One quote that I believe is meaningful to my artwork is **"There is nobility in the duty of care for creation through little daily actions, and it is wonderful how education can bring about real changes in lifestyle"**. It explains my drawing of how, if we take care of creation little by little, it can make the world have a change. In my drawing, I drew a half and half. . But if we don't do actions little by little, it can end up being grey and gloomy. And our Earth will one day be tired and dried out, because the Earth doesn't have a infinite source of supplies. This drawing relates to our school them "Hope" because i'm showing what would happen IF we continue but we can still have hope if we make change. By taking care of our Earth God left for us all to share and show the strength Stewardship.
