

Laudato si gwot

**The climate is a common good,
belonging to all and meant for all."**

REFLECTION

My reflection is about how we can care for the world, as you can see, my picture is about caring for our home. One side is black and the other side is alg. This shows us that we can care for it, but some people can't do that. This artwork made me feel a lot better about caring for it. This was the best task I had ever done because it taught me that if you care, god will care as well.

explanation of how caring for creation demonstrates our 2025 St Columba's college theme of Hope.

The theme of "Caring for Creation" is deeply intertwined with the concept of hope at st columba's college we have lots of good connections together as a big group we have lost of different bins to put your rubbish in. which that is The climate is a common good, belonging to all and meant for all."
