

2025 Season of Creation School Competition

School: St Columba's College

Year: 7

Teacher: Ms McGuire

“The climate is a common good, belonging to all and meant for all.” We need a good, healthy climate and environment to all live on and all share. The world that god gave us was lively, fresh and healthy but we have to work to keep it that way. Climate change is stopping us from keeping the earth and everything on it alive and making it harder to thrive off of. Caring for creation is giving us that light and hope that we need to keep going and keep everything healthy and living. By hoping, we can make the earth and everything on it a better place to live off of.
