

SACRED STORIES

LAUDATO SI

GENESIS

Explanation:

Each and everyday we are constantly throwing rubbish on the ground and contributing to the pollution on our planet. Pope Francis reminds us of the harm we are doing to the earth and urges us to do the best we can to improve our actions to make this world a safer and cleaner place. We must take action by taking care of our nature including watering gardens and trees, avoiding waste, using only what we really need, treating animals with care and working as a team to make this world a better and more sustainable place.

demonstrations at St Columbas:

A theme we have at st columbas is hope, when caring for our earth, we must think about the affects that could be caused when littering and being reckless. If everyone were to clean up after themselves and think before they do something we could make this world as beautiful as can be. Also referring to the theme of hope, we can hope for everyone to do what is right and not be lazy to do the right thing. At the end of the day, we can try and influence others to clean after themselves and not litter, but the most powerful thing to do is have hope, and hope for everyone to try their best being sustainable and encourage them.
