★ "THE CLIMATE IS A COMMON GOOD, BELONGING TO ALL AND MEANT FOR ALL" ★

Section B

The question that I chose for my poster is "why is it important for young people to connect with creation?". My poster demonstrates this question by displaying what the world would look like if us young people reconnect with nature and care to heal our earth versus what will happen if we keep on going with our harmful actions towards the earth. The laudato si quote that I chose was "the climate is a common good, belonging to all and meant for all". This quote explains to us how the climate is a good necessity that we are blessed with and that it belongs to everyone and is meant for everyone and that the climate's health and cure is in our hands.

Caring for creation demonstrates our 2025 St. Columbas College theme of "hope" because the college theme "hope" can mean many things including our hope for our climate and earth's healing and that's what caring for creation explains.
