

2025 Season of Creation School Competition

School: St Columba's College

Year: 7

Teacher: Ms McGuire

JUDGE- Reflecting through Faith

Laudato Si quote:

Humanity is called to recognize the need for changes of lifestyle, production and consumption, in order to combat this warming..."

My statement:

Why is it important for young people to reconnect with creation

Reflection

Each year we get more advanced as humans, we evolve and everything becomes faster. As a young person we get disconnected to the beauty of the world the Lord has created for us, as we are the new lot of humanity we need to learn the need for change on our planet and care for it like God would want us to not use it to our benefit. Young people get so caught up in technology we get distracted and forget what God has done for us and how God would want us to behave. If young people reconnect with creation and act how God would want us to then we can break the cycle of having to fix the problems we started.

How caring for creation demonstrates our 2025 St Columba's college theme of HOPE

Hope, hope is the start of all action for change. Caring for creation can be as simple as picking up rubbish on the ground or giving a smile to everybody you see walking around because WE as humans are also part of creation. But not everyone is willing to give that little change so at St Columba's our theme is Hope and hope that everybody will be willing to give that little help in caring for our creation the Lord has given us.
