

Drawing

By Maggie Inness

Drawing

Reflection

This picture represent the world when god made it to how it is today, I choose this drawing not just for the sake of it but because of what god told me, 1;31 “god say all he had made and it was very good “ this reminded me of what it looked like then to how it is now it. it when it was first created it was beautiful green lots and lots of animals and also no plastic or pollution to harm any sea life or any life at all it has come to my intention that life now compared to what is was before is very very different not just how it looks but how we have treated it. The world is half foggy and half plastic we treat it as poorly as i think we possible can, the world has emotions, feelings we need to treat it right or there won't be an earth at all.
