

Part B: Reflecting through Faith

Drawing:

Question:

Why is it important for young people to reconnect with creation?

Part B: Reflecting through Faith

Laudato Sí quote:

Quote: "Doomsday predictions can no longer be met with irony or disdain. The Earth's problems are real and they require urgent action."

Reflection:

Reflect: The prompt question that connects to what I have pictured in my drawing states that it is important to care for our planet because, as I showed, our earth is being punctured and polluted by our actions. We need our world to transform back to the place it used to be, so it is our duty to cure our earth from our deadly behavior towards it. My artwork also connects to the Laudato Sí quote above because Earth's problems are, in fact, real, and we have to repair all of Earth's dilemmas for every living soul and make God proud.

Part B: Reflecting through Faith

Explanation 2:

Explain: Caring for our world connects to St Columba's theme of hope in 2025 because we do many things to care for our common home, like recycling. Our theme of hope guides us towards caring and nurturing our earth because we have hope that one day, with every amendment we make to the earth that our home will one day become its former self again.
