

2025 Season of Creation School Competition

School: St Columba's College

Year: 7

Teacher: Ms McGuire

"The exploitation of the planet has already exceeded acceptable limits and we still have not solved the problem of poverty."

LAUDATO SI

This Laudato Si quote connects with my drawing because the quote talks about how we have overused Earth's resources to the point of environmental crisis. My drawing shows a Dove with the Earth with a sunset in the background which shows peace in my eyes because the quote is talking about the exploitation of the planet but my drawing is connected to it but also the complete opposite.

Caring for creation shows Hope at St Columbas

because it means we believe the world can be better. When we recycle and create new things out of stuff that is bad for the water, we are showing we want a good future. Hope is about not giving up, and looking after the earth shows we believe tomorrow will be bright.
