

2025 Season of Creation School Competition

School: St Columba's College

Year: 7

Teacher: Ms McGuire

Judge- Reflecting Through Faith

St. Columba's College theme 'Hope' shows the care for creation by looking after the world through recycling, saving electricity (with solar panels), and many more. We hope and believe that caring for the creation can make the world a better place. Even though we all have different problems with the world, there are some main ones, which are climate change, pollution, and fossil fuels, which affect our environment. We can give the world hope if we make small changes in the world.

Judge- Reflecting Through Faith

My creative piece is inspired by 'What does peace with the creation look like to you?' My piece shows a girl's face and what peace means to me with many peace symbols, drawings, and colours. This connects to the quote from Laudato Si, he says that, "What kind of world do we want to leave to those who come after us, to children who are now growing up?" (Laudato Si, 160). This reminds me of all the things we leave, don't think about nowadays. I showed in my creative piece of a boy climbing and seeing all the peace and creation. This shows that even if he's such a kid, he still shows peace in the world.
